# THE *New* MOOD

As we welcome *SPRING*, a new sensual mood with soft pastels comes into play.

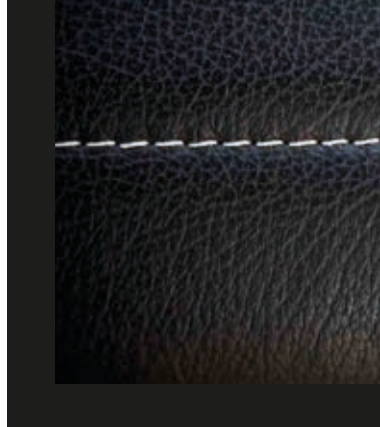

2013 introduces a new, more gentle mood and grand hopes for the year to come. As the grey skies clear up and the trees grow green we long for all that spring and summer has to offer.

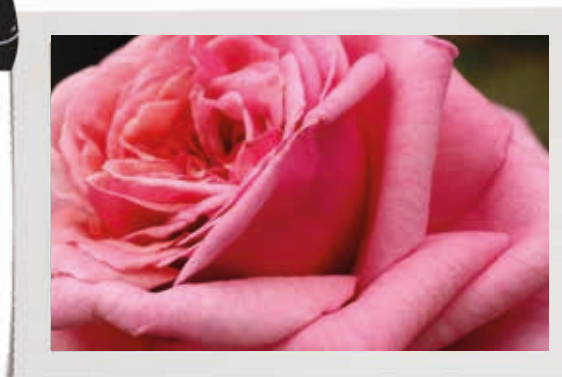

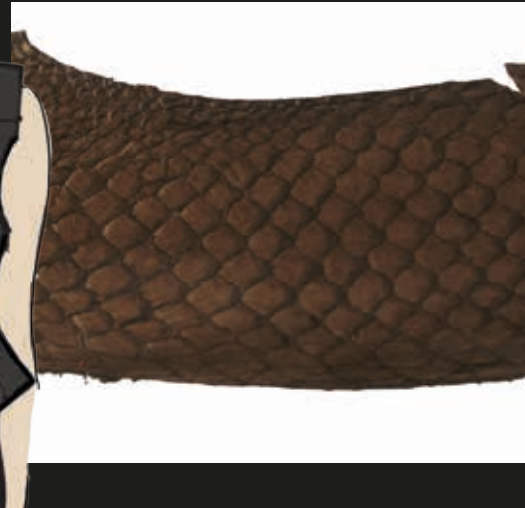

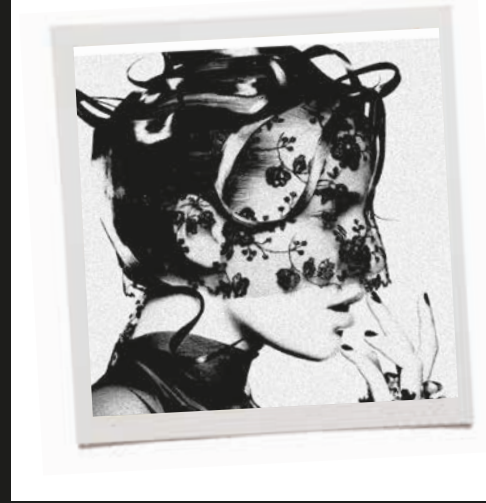

For this collection, we have brought in an element of sweet romance with a soft pastel palette in ivory, mint green and light pink. Let pastel accessories make the transition from your winter wardrobe into your spring/summer one. As always, there is the contrast of black leather, shiny metals and precious stones. The collection also plays with proportions and shapes of stars, Buddha figures and tassels. Whether you go for one bold statement necklace or a chic combination of long and short chains, it is all about beautiful accessories that can create an exciting look.

The global diversity in style, taste and culture is reflected in a collection filled with everything from sweet to edgy. Small enough to fit in your handbag, let the right accessories be your secret weapon to always looking amazing.

Happy Spring!

*Dibbli Camilla Nihlen*

# Material

Our jewellery designs are primarily made of zinc alloy, tin alloy or brass with silver plating. We also have a small collection in stainless steel.

Other materials we use are genuine leather, freshwater pearls, glass stones and semi-precious stones such as jade, agate, aventurine, rhodonite and turquoise.

All of our styles are nickel and lead free.

# Care

Please keep in mind that all people affect the jewellery differently due to factors such as medicine and stress.

We recommend the following to make the jewellery last longer:

- Avoid contact with water, perfume and lotions.
- Remove jewellery before sleeping or exercising.
- Clean regularly with a polishing cloth.
- Keep them in a dry and dark place when they are not used.

You are welcome to contact us if you have any questions!
